MOBINA SAEDI

Computer Engineering Undergraduate | Aspiring AI/ML Researcher

mobinasaaedi@gmail.com | linkedin.com/in/mobina-saedi-87043a237 | github.com/mobinasaedi

EDUCATION

B.Sc. in Computer Engineering | Islamic Azad University, Central Tehran Branch
Expected Graduation: June 2027 | GPA: 18/20

RESEARCH INTERESTS

Machine Learning, Artificial Intelligence, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Explainable AI (XAI), Low-Resource and Multilingual NLP, Data Science

RESEARCH EXPERIENCE

Persian NLP and Large Language Model Robustness Research | Manuscript in Preparation

Orthographic Variation and Input Normalization in Persian LLM Multiple-Choice Question Answering: A Paired Pilot Protocol

Co-author: Mohammad Farshad Fazeli Sabzevar

- Contributed to writing the research manuscript.
- Designed a paired experimental protocol to investigate Persian orthographic variation and input normalization in LLM multiple-choice question answering.
- Implemented Python code to support the research workflow.

Status: In preparation; not yet published or submitted.

TECHNICAL SKILLS

Programming: Python
Data Analysis and Manipulation: NumPy, Pandas
Data Visualization: Matplotlib, Seaborn
Machine Learning: Scikit-learn; foundational knowledge of machine learning concepts
Development Environment: Jupyter Notebook

PROJECTS

Age Calculator – A small application that calculates a user's age from date-of-birth information.

House Price Prediction – A machine-learning project aimed at estimating house prices from property features.

Air Drawing – A computer-vision project that lets users draw in the air using hand movements.

Inventory Management System – A Python-based program for managing product selection and inventory operations.

EduPredict – An explainable machine-learning project exploring early identification of students at academic risk through student data analysis.

EXPERIENCE

AI/ML Intern | AIO Learn
October 2026 – Present

English Language Instructor and Online English Tutor
Safir Gofteman Institute, Melal Language Institute, AmazingTalker
Teaching English to learners across different age groups and proficiency levels. | June 2024-Present

CERTIFICATIONS

Exploratory Data Analysis for Machine Learning | IBM — Coursera
Issued August 2026 | Verify: coursera.org/verify/D792BPCQ0W14

Programming with Python | Mojtama Fanni (Technical and Vocational Training Complex)
Issued 2024

IBM Machine Learning Professional Certificate | In Progress

LANGUAGES

English: Preparing for IELTS; target test date Spring 2027
French: Preparing for TCF; target test date Spring 2027
